Mechanism

Mother Earth is a third person game with RTS elements
It is set on a large sphere shaped planet. The player moves around the planet as the game is played.

Primary Mechanics

- Movement around a sphere
- Button presses for casting spells towards the mouse
- RTS drag select and movement commands for nature minions

GOAL FOR THE GAME

Save the planet

The player’s goal is to regrow the planet by casting spells to grow trees and flowers

Fight against the Enemies

Player must battle fire enemies attempting to ruin the planet's ecosystem by commanding nature minions to fend off the enemy horde

Thanks for playing Mother Earth
